

Dear Westerly Families,

Thank you for joining us for our recent State of the School presentation, in which we reviewed important information regarding both our 2019-20 school year as well as a glimpse ahead at the 2020-21 school year to come.

If you were not able to join us for the Zoom presentation, the video recording can be viewed [here](#).

There were a few questions that we were unfortunately unable to address during the presentation, but we wanted to make sure that these questions, as well as others posted by our community, are answered [here](#).

Lastly, we want to reiterate a few key dates and aspects which were announced during the State of the School and shared via email last week, as they pertain to the upcoming school year:

- In the 2020-2021 school year, **Westerly plans to offer BOTH on-campus and online learning** in parallel. This means you will be able to choose which means of accessing Westerly is right for your family's unique situation.
- **Our new school year is planned to begin on August 17 and 19.** Kinder-4th Grade students would begin on the earlier date, while Grades 5 through 8 would begin on the latter. We also outline alternative dates in the presentation slides in case an August return isn't possible due to health restrictions.
  - These dates, as well as holidays, breaks, and graduation, can be found on our website calendar [here](#).

For any additional questions, please contact [info@westerlyschool.org](mailto:info@westerlyschool.org).  
Thank you!

In partnership,

**Westerly School**
